Speed Vac Concentrators
Block heaters
Air Filtration Units
Nitrogen Generators
Straw Sealers
Tube Warmers

Preventative Maintenance Service Contract Information 2023

Proudly Servicing the UK Since 2004

Dependable & Professional Service

When you choose to be supported by UK Laboratory Services then you can be assured of our first class service no matter which service option you choose.

We have structured 3 tiers of support that allows you to choose which suits you best depending on budget or importance of equipment. Each plan is built on levels of PM service and priority on site response.

Bronze Contract

Our entry level bronze package includes the following:

- 1 preventative maintenance service call per annum.
- 1 calibration check only per annum.
- 10% discount off all additional service visits.
- 10% discount off all additional parts and PM kits.

Factory Trained Engineers On
Sanyo-Thermo-Panasonic-New
Brunswick-Eppendorf-IVFtech.

Silver Contract

Our popular mid-level silver contract includes the following:

- 1 Preventative maintenance service call per annum.
- 1 calibration call with calibration certificate.
- 15% discount off all additional service visits.
- 15% discount off all additional parts and PM kits.
- Emergency response within 48 hours.

Gold Contract

Our premium level of service is popular with time critical equipment and instruments and come with the following:

- 1 preventative maintenance service call per annum.
- 1 calibration call with calibration certificate.
- 1 PM kit per annum.
- All parts included (except Compressors & PCB's).
- 20% discount off all additional service visits.
- 20% off all additional parts.
- Emergency response within 36 hours.

Peace of Mind

No matter what level of service you choose you will always be guaranteed of our factory trained service engineers giving you a top level of service and support no matter what equipment or instruments you have covered. All our engineers carry top of the line test and calibration meters which are serviced and calibrated yearly.

Our engineers cover the entire UK servicing and repairing laboratory equipment along with carrying out vital yearly preventative maintenance, calibration and validation checks on product and time critical instruments. All repairs and documentation are carried out to ISO9001 standards.

If you are just looking for general service, require an engineer in a hurry for a breakdown or wish for a yearly service and PM quotes then you are just a phone call away. Please contact us on the number below or email your enquiry and one of our friendly office staff will gladly help you.
